[Project No. 1894-193]

South Carolina Electric and Gas Company; Notice of Availability of Draft Environmental Assessment

November 10, 1997.

A draft environmental assessment (DEA) is available for public review. The DEA was prepared for an application filed by the South Carolina Electric and Gas Company, licensee for the Parr Hydroelectric Project. In its application, the licensee requests Commission approval of a land use and shoreline management plan for the project. The proposed plan provides for the conservation, development, and use of 142 miles of shoreline around the project's Parr Reservoir, Monticello Reservoir, and recreation subimpoundment.

Based on the comparative environmental analyses presented in the DEA, the Commission's staff has selected the licensee's proposed plan with staff modifications as the preferred alternative. The DEA finds that approving the staff modified plan would not be a major federal action significantly affecting the quality of the human environment.

The DEA was written by staff in the Office of Hydropower Licensing, Federal Energy Regulatory Commission. Copies of the DEA can be obtained by calling the Commission's public reference room at (202) 208-1371.

Comments on the DEA must be filed with the Commission within 40 days from the date of this notice. Comments should be addressed to: Ms. Lois D. Cashell, Secretary, Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426. Please include the project number (1894-193) on any comments filed.
